

THE TELEPHONE

My, How Telephones Have Changed?

1. For what are telephones used? Telephones had long cords hooked to a base. The telephone base had a cord attached to the wall. You had to be near the base to talk on the telephone.

2. What does an old-fashioned rotary-dial telephone look like?

3 How large is a modern-day cell phone? How many of you have cell phones? Did you know that the first public telephone call on a cellular telephone was on April 3, 1973. Motorola introduced the cellular telephone into commercial service in 1983. Each cellular telephone cost \$3500.00. The average cost of a cellular telephone today is \$50.00.

4. Today there are millions of old-fashioned telephones no longer in use.

What can one do with a telephone that is no longer in use?
